Trial seeded at 25 lb/acre viable seed on Panoche clay loam soil at UC West Side Research and Extension Center, Five Points, CA.

Entries followed by the same letter are not significantly different at the 5% probability level according to Fishers (protected) LSD.

NOTE: Stand Ratings taken 8/28 on a 1-10 scale (10= best), ranged from 4.8 to 7.8, considered good for a 3-year stand. There was no correlation with yield rank.
