About S&W Seed Company

Founded as a partnership in 1980, S&W Seed Company is now a global agricultural corporation, headquartered in the Central Valley of California. The company is the largest producer of non-dormant, alfalfa seed varieties in the world, with production operations in the San Joaquin and Imperial Valley's of California, as well as in South Australia. The company has worldwide sales and distribution through both a direct sales force as well as dealer-distributors. The company's proprietary varieties are designed to meet the shifting needs of farmers that require high performance in poor and highly saline soil conditions and have been verified over decades of university-sponsored trials. Additionally, the company is utilizing its research and breeding expertise to develop and produce U.S.-based stevia leaf. Stevia is an all-natural, zero calorie sweetener from the food and beverage industry. For more information, please visit www.swseedco.com.
